Description:

The National Accounts Statistics of India (NAS) module presents comprehensive sets of data series duly updated with the latest available data as per the new series of NAS with 2011-12 as the base year. The new series will also get updated from time to time.

The series presented here covers every segment of the Indian economy as depicted in the CSO's 'National Accounts Statistics'.

To sum up, this module covers the following data sets, presented both at current and constant prices:

1. National Income and other key related macro-economic aggregates (including Price and Quantum indices)
2. Expenditure components of Gross Domestic Product (GDP) at market prices
3. Gross Value Added (GVA) at basic prices by industry/economic activity
4. Output, intermediate consumption, value added and consumption of fixed capital by institutional sectors
5. Domestic saving by institutional sectors (including household financial savings by assets)

Abstract

Introduction

In view of recent phenomenal development in food science and technology, information on the profile of food consumed and thus dietary nutrient sources are important, not only to the food industry, but to clinicians, epidemiologists, food scientists and nutritionists. It is also important to know how dietary intakes of individuals and groups are affected by various personal and group situations. This is particularly so in vulnerable groups like adolescents. Woodward (1985), in studies with Tasmanian teenagers had demonstrated that several personal characteristics like age, school type, and peer pressure influence dietary intakes of teenagers in a typical Western society. Many developing countries are undergoing rapid social and economic changes in their society. Such changes have resulted in many parents in Nigeria opting to send their adolescent children to boarding houses while attending high school.

Very few studies have reported the nutrient intake of Nigerian adolescents (Cole and Ogunbe 1987; Cole *et al.*, 1997; Oguntona *et al.*, 1987). These studies provided the sum of nutrient intake with no indication of the major

Plagiarism Checking : URKUND

Plagiarism :Plagiarism is simply taking other people's words and/or ideas, using them, and then – rather than giving credit to the person who thought of them, pretending that those words/ideas belong to you.

URKUND:

- URKUND checks documents against previously submitted student material, it is very difficult for others to steal your work without being detected.

Search Tips

Get the most out of Google Scholar with some helpful tips on searches, email alerts, citation export, and more.

Finding recent papers

Your search results are normally sorted by relevance, not by date. To find newer articles, try the following options in the left sidebar:

1. click "Since Year" to show only recently published papers, sorted by relevance;
2. click "Sort by date" to show just the new additions, sorted by date;
3. click the envelope icon to have new results periodically delivered by email.

Locating the full text of an article

Abstracts are freely available for most of the articles. Alas, reading the entire article may require a subscription. Here're a few things to try:

1. click a library link, e.g., "FindIt@Harvard", to the right of the search result;
2. click a link labeled [PDF] to the right of the search result;
3. click "All versions" under the search result and check out the alternative sources;
4. click "Related articles" or "Cited by" under the search result to explore similar articles.

If you're affiliated with a university, but don't see links such as "FindIt@Harvard", please check with your local library about the best way to access their online subscriptions. You may need to do search from a computer on campus, or to configure your browser to use a library proxy.

DOAJ (Directory of Open Access Journals)

DOAJ is a community-curated online directory that indexes and provides access to high quality, open access, peer-reviewed journals. DOAJ is independent. All funding is via donations, 18% of which comes from [sponsors](#) and 82% from [members and publisher members](#). All DOAJ services are free of charge including being indexed in DOAJ. All data is freely available.

DOAJ operates an education and outreach program across the globe, focussing on improving the quality of applications submitted.

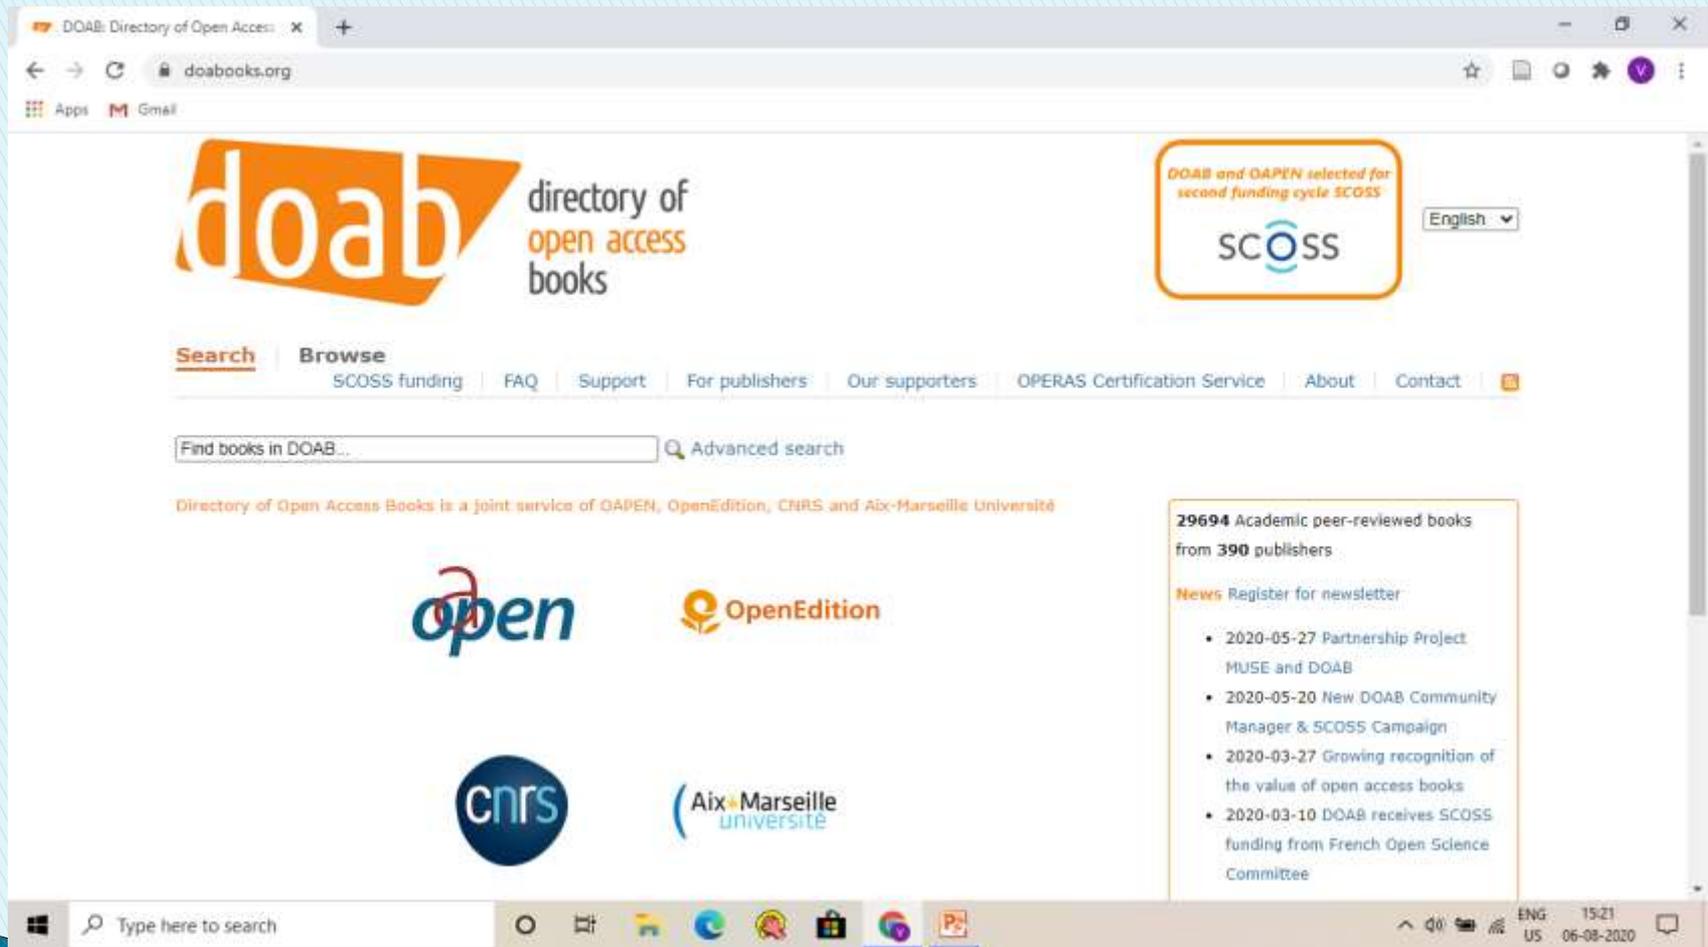

Latest News

Here is why you should apply for your open access journal to be indexed in DOAJ.

At DOAJ, we index and promote the value of quality, peer-reviewed open access journals. By reviewing journals according to a set of criteria, and helping journals to meet those criteria, we set the international standard for open access. The data that we collect is incorporated into discovery systems all over the world. The steady growth [...] [Read More...](#)

The screenshot shows a web browser window with the URL `dart-europe.eu/basic-search.php`. The page title is "The DART-Europe E-theses Portal". The website header includes the DART Europe logo and navigation links: HOME, ABOUT DART-EUROPE, DOCUMENTS & DOWNLOADS, RELATED ORGANISATIONS, and PARTNERS & BOARD.

The main content area is titled "Portal" and includes a navigation menu with links for Search, Browse, Search History, Marked List, Feedback, and Help. A yellow banner contains the following text: "We are working to upgrade to a new platform and will launch an improved service in Spring 2020. The current legacy platform has some harvesting limitations, so please accept our apologies for any inconvenience caused in the meantime."

Below the banner is a search section titled "Search the portal" with a magnifying glass icon. It states: "Access to 828,728 open access research theses from 619 Universities in 28 European countries". There is a search input field labeled "Enter term(s)" and a "Search" button.

The "Latest additions to the Portal" section shows "View records for" set to "today" with a "Go" button and a "Subscribe to latest" link. Below this, it says "No recently added records were found".

The "About DART-Europe" section describes it as a partnership of research libraries and library consortia working to improve global access to European research theses, with a "More..." link. Below this is a section for "Most downloaded, last 7 days".

The Windows taskbar at the bottom shows the search bar with the text "Type here to search", several application icons, and system tray information including "ENG US", "15:31", and "06-08-2020".
